Roderick's Bestselling Books

Sales Enablement 3.0 Is Both an Art and a Science!

There are no magical silver bullets or a single approach that will guarantee that you will be successful! There is, however, a formula, like any other successful process, program, or tool, that requires a combination of practical application, trial and error, and many conversations with Sales leaders to understand their wants, needs, and expectations.

At its core, Sales Enablement 3.0 is an innovative approach focused on increasing sales productivity through a systematic, personalized, and collaborative framework designed to support buyers and fuel the conversation economy!

These books will provide you with a blueprint to help you navigate the twists and turns that will ultimately lead you to design, deploy, measure, and iterate on a world-class sales enablement organization.

Imagine surviving a stroke in your sleep, giving you only a 2% chance of survival, and waking up with a mission to redefine success, recovery, and resilience!

Stroke of Success™ is more than a memoir; it's a roadmap to rethinking ambition. Roderick Jefferson, corporate executive, founder, and global keynote speaker, built a life that epitomized success until a near-fatal stroke forced him to confront the hidden costs of relentless ambition.

This deeply personal account traces his climb up the corporate ladder and his journey back from adversity, blending lessons of resilience, recovery, and purpose. This is more than a story. It's a personal success accelerator!
